# *Math Hopscotch Rules*

- The objective of this math game is to create a continuous equation that allows you to jump from one number to another using the digits **1 - 9** and the basic math operators (**+**, **-**, **×**, **÷**)
- Each starting number will be chosen randomly
- Ending number becomes next starting number
- Digit tiles may used only once, and operator tiles may be used three times max each
- When you have the solution, say your name
- Game ends when all 25 numbers are used
- Scores will be tallied at the end
